

## Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a 100 year custom of quality and service. They concentrate on several integrated systems, modules and parts to original equipment manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the wishes of all their clients to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and employing more than eleven thousand two hundred people, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

Meritor strongly believes in only employing future focused workers. These top-caliber people can quickly get used to to changing surroundings and freely exhibit the level of commitment and performance necessary to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor provides their workers various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, braking and suspension systems meant for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of their global engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all over the globe in 19 countries and in 5 different continents.

They have their supplier network which is particularly situated in order to support the growth of the business. Each and every regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within every aspect of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability within each region. The team is likewise comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
