

Concrete Hoppers

Concrete Hoppers - This particular attachment is a self-dumping hopper that automatically triggers to dump whenever bumper release touches the side of a dumpster. Once unloading is completed, the hopper returns to an upright and locked position. This particular piece of equipment is likewise presented together with a cable that enables operation from the seat of the forklift so as to have the option of manually dumping the hopper. There is a locking chain provided to secure the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish in order to maintain durability.
